Deceleration

I hereby declare that this Computer Science Lab Report is my own work. All the C programs, algorithms, dry runs, and flowcharts included in this lab report were written and practiced by me during the academic year 2082 under the guidance of my Computer Science teacher.

I confirm that this lab report has been prepared without copying from others or using any AI tools and is being submitted at the end of the academic year for practical assessment. Any help taken from books or other learning sources has been properly referred to.

Evaluation and Approval

The Computer Science Laboratory Report submitted by the has been carefully evaluated and reviewed. The report has been assessed on the basis of the **completion of laboratory exercises, accuracy of programs, implementation of practical concepts, logical understanding, output/results, documentation, presentation, and overall quality of the practical work.**

The student has demonstrated an understanding of the fundamental concepts of Computer Science through the practical exercises included in this report. The programs and practical activities have been reviewed to ensure that they are relevant to the prescribed course content and that the required tasks have been completed satisfactorily.

The report has also been evaluated for proper organization, clarity of explanations, appropriate use of programming syntax, correctness of results, and presentation of the practical work. Necessary corrections and improvements have been suggested wherever required.

Based on the evaluation, this laboratory report is **approved and accepted as a record of the student's practical work in Computer Science for Grade 11** for the academic session **2083/84.**
